**The market needs diversity in products and elements for store furnishing.**

We develop, manufacture and sell a wide range of products for retail and wholesale outlets.

Our offer includes almost all the necessary self-service equipment for a shop infrastructure: shopping and transportation trolleys, goods displays and customer guidance systems.

If you are looking for an experienced and reliable partner in the field of self-service store devices: **PRODUS is a suitable alternative.**

Flexible, custom manufacturing capabilities ensure production profitability in high and low inputs, and even individual items. By using our own electroplating devices and coating systems in the RAL colour range, our products retain their functionality and usability for a long time.

*We're at your service!*
